

Review By Mr. Evensen

Mr. Rudolfsson decided to write about logging in and voting in a electronic voting system. To answer Hanno's review criteria : Yes the case is a electronic ID solution. Yes there are two possible race condition presented. Yes they really are race conditions. Yes to that long question, and indeed the outcome violate a security goal.

Mr. Rudolfsson did present countermeasures to the race conditions-

In this task, i feel that the writer did exatcly as the task required him to do. I don't have anything to point out regarding what could be better. So.. Its a **PASS**
